

Waves Electronics PVT LTD

**Testing Engineer or Assistant  
Testing Engineer**

Company Name: Waves Electronics Pvt Ltd

Location: Kizhakkambalam, Kerala, India

Start Date: ASAP

Industry: Power Electronics, specialised in the industry and maritime sector

We are currently seeking a skilled and experienced Testing/services Engineer or Assistant Testing/services engineer to join our team. If you have a diploma or higher qualification in a relevant field, a minimum of 2 years of experience in testing engineering, and possess the necessary soft skills and technical knowledge, this position offers an exciting opportunity!

### A. Company Description

Waves Electronics Pvt Ltd is a well-established medium-sized family-owned enterprise, founded in 1972. Waves is a leader in building electrical switchgear and battery chargers for the industry and marine sector. With a dedicated team of over 50 employees in various departments including Design, Manufacturing, Bidding, Testing, and Business Development, we strive to deliver high-quality products and exceptional customer service.

### B. Responsibilities

- Plan and execute testing activities for electrical switchgear and battery chargers.
- Develop test plans and procedures based on project requirements and industry standards.
- Collaborate with clients to understand their testing requirements and provide technical support.
- Commission our products at the client's premises
- Attend services activities at the client's premises
- Represent the company during external inspection and certification
- Interact with clients professionally, ensuring their needs and concerns are addressed.
- Analyse test data and generate comprehensive reports on test results.
- Troubleshoot and resolve any issues encountered during testing.

### C. Requirements

- Diploma or higher qualification in electrical field.
- Minimum of 2 years of experience working as a Testing/service Engineer.
- Experience in interacting with clients and providing excellent customer service.

- Strong soft skills, including communication, interpersonal, and problem-solving abilities.
- Experience in testing electrical panels and related components.
- Knowledge of how to read and use electrical drawings.
- Basic knowledge of PLC (Programmable Logic Controller) systems.
- Basic knowledge of AutoCAD for reviewing electrical drawings.
- Familiarity with industry standards.
- Attention to detail and a commitment to producing accurate and high-quality work.
- English is required. Hindi would be an added value.

#### D. How to apply ?

If you are a motivated individual with the required skills and experience, we would love to hear from you! To apply for this position, please submit your resume, and any relevant certifications via email to [waves72@gmail.com](mailto:waves72@gmail.com)

Please include "Testing Engineer Application" or "Assistant Testing Engineer application" in the subject line.
